But it is most untruthful to say "when the Saviour was here it was the common people who heard Him gladly." It was the rich people who heard Him gladly, and the poor people. The rich people, the general people, the wealthy people who "heard Him gladly," said people as well as poor people, good people, careless people, indifferent people in a word, what has been designated, all the people. No exclusive. It is true to say, as Bryan does say, "the very people whom these ministers call anarchists and socialists," for that is the same as saying all of the people of Christ's day were anarchists and socialists. Mr. Bryan knows all of the people of Christ's day. He knows the rich and anarchists. He knows the ministers of today have no one allied to the common people as socialists or anarchists. They whom the ministers have allied to as socialists and anarchists are the rich people, the capitalists, the Albigists. The very ones, in fact, who have written themselves down socialists and anarchists. The ministers who have spoken for "sound money," or an honest currency, for the prosperity of the country and for the best interests of the people, are the same people to be because they believe in morality, in honor, in loyalty and in patriotism. They could not do otherwise than to de-

"They are all DOUBLE AND GENERALLY MORE. For example, the cost of a barrel of wheat about twelve and a half cents in the same country of the United States, will cost from fifty to sixty cents in Mexican silver. If Mexican prices are stated in dollars, as all American prices are stated, it would go something like this: a sack of good sugar, which costs \$2 a sack in the United States, will cost \$3 in Mexico. Sugar about the same in value as to quality. A person who uses in Mexico, for instance, would have to pay from two to four times as much for the same articles as in the United States or Europe."

"The thing has increased and increased remarkably."

"Yes, THE ONLY PERSONS WHO HAVE BEEN BENEFITED BY THE DEPRECIATION OF SILVER ARE THE FOREIGN COUNTRIES."

**Common Error Explained.**  
**COURIER-INFORMANT:**  
I desire to call attention to what I have recently discovered to be a widespread error in the public mind with regard to the relations existing between the government and the national bank. I find it to be a widespread impression that after the bank has deposited its bonds with the government, the treasury department loans the bank without interest, ninety per cent of the face value of the bonds deposited.

This is entirely wrong. The government does not loan the bank a penny under any circumstances whatever. The national bank note is not in any sense a note of the government. The government stands as

The *Gleaner* is a neat little 4 column, 8 page paper published at Beaver Dam, by Messrs. J. N. and W. M. Likens. It has the appearance of coming to stay; it will be independent in politics.

The *Hartford Leader*, published at Hartford, Ky., is one of the latest additions to our exchange list. It is published by Mr. I. E. McClure, an old experienced newspaper man, and as it is published in the interest of the Republican party, we trust that it may live and do much good for the cause.

There are sound money Democrats about town and other places, who are bitterly opposed to the Chicago platform, and who were sound money men before the Convention, but since the Convention they are now "Floppers," inasmuch as they will vote for Bryan against their own belief and against the best interest of the country.

EVERYWHERE throughout the District Hon. Jno. W. Lewis is met by tremendous crowds anxious to hear the truths told by him, and everywhere he is met by the intelligent people and given an ovation which shows his popularity among the people of his District. He is making a magnificent canvass and is gaining strength every day.

It is the intention of the silverites to suppress free speech. They have no argument and they know it. They will listen to argument in support of Sound Money the majority of men they are counting for certain will vote against them. Now to prove that they will not listen to Sound Money argument, they have sent out to Gen. J. A. Parker, a Populist, to speak here at the same time that Gen. Hill is advertised. What does this show? How does it strike fair-minded men?

"You shall not press down upon the brow of labor this crown of thorns, you shall not crucify mankind upon a cross of gold."—[W. J. Bryan.]

The above is something unheard of coming from a Presidential candidate. It has shocked the entire religious world of both sect and creed and they turn with shame from such an exhibition of bad taste. Well is he answered by Mr. Verday in the following language:

"No, indeed; no crown with its poisonous prongs shall pierce the suffering head of labor, but instead, that same head shall by this free silver policy be made to burn and sweat beneath the scorching sun of long days, and receive as reward a spurious coin whose lace value belies its real value in the scale of the money changer. No, you shall not crucify mankind upon a cross of gold." Neither was the victory of Calvary's stupendous tragedy so crucified, but he was cruelly betrayed for thirty pieces of silver, and the metal still smells of treachery."

LAST week we asked the Hartford *Herald* some very important questions, bearing directly on the issues of this campaign. The questions were asked that paper might give the truth once more when it answered them. But this week's *Herald* followed up their long established reputation of lying and suppressing the truth. What does this prove? It proves that they have no argument in support of their false theory and are dodging the issues. If they were honest in their convictions, if they have any convictions, the questions would have been answered. We again insist that you answer the questions or else admit, by your silence, that you are ignorant of the subject or your cause cannot be supported by argument because you have no argument.

## FREE SILVER AND WAGES.

Extracts From Speech of Hon. Jas. T. McCleary, of Minnesota, Delivered in the House of Representatives February 12, 1896.

And now let us see how the situation of working-men in this country compared in 1893 with that during the so-called "harmful times." From the famous Senate report on wholesale prices, transportation and wages, before referred to, I take the facts for the following table of wages in leading occupations every tenth year for some time before the war, when we had our mint, "open to the free coinage of both metals," in comparison with wages in 1890, a sixth of a century after we finally adopted our present system of unlimited coinage of gold and limited coinage of silver:

OCCUPATION.	1840.	1850.	1860.	1870.
Plasterers . . . . .	\$1 50	\$1 75	\$1 75	\$3 50
Blacksmiths . . . . .	1 50	1 50	1 50	3 00
Blacksmiths' helpers . . . . .	83 1/2	83 1/2	83 1/2	1 75
Painters . . . . .	1 25	1 25	1 25	2 50
Wheelwrights . . . . .	1 25	1 25	1 25	2 50
Carpenters . . . . .	1 25	1 41	1 52	1 94
Engineers . . . . .	2 00	2 25	3 00	4 25
Firemen . . . . .	1 35	1 47	1 44	1 65
Laborers . . . . .	81	1 04	99	1 25
Machinist . . . . .	1 54	1 55	1 76	2 19
Watchmen . . . . .	1 10	1 06	1 00	1 55

\*Average . . . . . 87 7/10 92 7/10 1 00 1 68 6/10  
\*Average, according to importance, for all occupations, 1860 being reckoned as 100.

We have seen that the condition of American working-men has vastly improved since the days when we had free coinage of silver. It has been shown, also, that opening our mints to coinage of silver on private account would at once send us to a silver basis. How would this affect wages and the men who earn them?

Every man who earns his daily bread by his daily toil owes it to himself and those whom he holds dear to think this over carefully.

THE Democrats have refused to give the Populist the Congressmen in this District, and are now down upon their knees begging the Populists to support Bryan and Smith. The Democrats have been trying to fuse the Populists entirely out.

THE Hartford *Herald* is even partisan when it comes to mentioning a Populist speech. We understand that Mr. Parker made the best speech that was made at Fordville last Saturday and yet the *Herald* complimented all the other speeches and never mentioned Mr. Parker. And yet they want the Populist vote.

THE silverites, to further their pet theories, will resort to almost anything. Now, in order to break up a Democratic speaking they have imported a man to speak at the same time in a different part of the town, and will parade the streets with a brass band and with Commancbe yells until they break the speaking up, and yet they say they are not rioters, anarchists, etc. Away with such bosh, it is imprinted on their foreheads.

THE *Herald* this week says there were 3,000 people heard Capt. Ellis at Fordville last Saturday and that there were 1,500 horsemen in the parade. We have taken pains to interview Mr. Lee B. Stevens, a Democrat who was there, and he informs us that there were about 40 or 50 in the parade and there were not more than 300 who heard Capt. Ellis. So you see that the *Herald* has lied again, but if it does not lie everybody will be disappointed.

THE *Herald* gets up on its head because the Democratic committee didn't advertise Gen. Hill's speaking in that paper. That is easily explained; a few weeks ago, Mr. Reil, of Rockport, sent them a notice of a Democratic speaking at Rockport and told them he would pay for it, but still they refused to hear free speech, and would not publish a notice of the speaking for love nor money, and yet this same paper sets itself up as a teacher. A great teacher it is! So blinded by partisan feelings that it cannot tell whether it is "comin' or goin'."

AND now Wilbur Condit has at last landed in a party. We never knew until this week where he was "at." He has been so scattering that it was impossible to find him, but since he has placarded himself we know he has fallen over the fence, and is now riding a 53 cent dollar "through a slaughter house to an open grave." This said, indeed, to chronicle his departure, but what the Republican party gains, the Democratic party loses by getting him. Go on, and on, Bro. Condit; it will not be long until you will want an office from the Democratic party, and when you are refused, where, oh, where, will you be? Echo answers, "In the soup."

LAST week we asked the Hartford *Herald* some very important questions, bearing directly on the issues of this campaign. The questions were asked that paper might give the truth once more when it answered them. But this week's *Herald* followed up their long established reputation of lying and suppressing the truth. What does this prove? It proves that they have no argument in support of their false theory and are dodging the issues. If they were honest in their convictions, if they have any convictions, the questions would have been answered. We again insist that you answer the questions or else admit, by your silence, that you are ignorant of the subject or your cause cannot be supported by argument because you have no argument.

THE Hartford *Herald* says this week: "It is currently reported on the streets of Hartford that the sum of ten thousand dollars is or soon will be at the disposal of the Republican managers here to help carry Ohio county for McKinley and sound money." Once more the *Herald* has told this same truth, but it might have gone farther and stated truthfully that the editor of the *Herald* and the Populist wire pulling bosses of Hartford were the sole originators and circulators of said report, which upon its face shows its unreliability and that it is a pure and unadulterated "campaign lie." Republicans believe voters who would sell their principles could not be trusted to vote right even for money, therefore they think it unnecessary to have any campaign fund for the purpose of buying votes, as the *Herald* insinuates, even if they were for sale.

## JOS. H. ARNOLD

Is Still Unshaken in His Conviction by the Abuse of Enemies.

I desire to express my earnest appreciation of the honest, manly and courageous stand you have taken in this most remarkable campaign of fusion and confusion. It is encouraging to know there is at least one true Populist paper in the state that has not hoisted the white flag of surrender, nor turned its back on the cause of the plain people.

The People's party must be saved from its professed friends who are really, whether willfully or not, its most dangerous enemies. The rank and file of our people who can be neither lulled nor bought will know whom to trust when this crisis is over and the treachery of those who have hargained to deliver us to the enemy is properly rebuked, as it will be.

The leadership of the People's party in future, if it is to continue to live, must be taken out of the hands of those who have aimed that leadership in the past. For how can any honest, faithful People's party man trust in the future the leadership of those men who in the past have dickered for the delivery of his vote to the enemy?

If our committee can sell and deliver us to the enemy in 1896, what shall prevent them from selling us in 1898 and in 1900? I am most heartily glad that the rank and file of our people are going to refuse to be delivered notwithstanding the fact that our "leader" have hargained to deliver us.

Now is the best time in the world for all Populist loyal and true to show to the world, and especially to our "leader" that they are absolutely unpurchasable and cannot be sold and delivered as mere merchandise now or at any other future time, by any committee for any price whatever.

I want to ask candidly, how can we ever hope to win and hold the confidence of the masses of the people in our honesty and integrity of purpose if we exhibit a willingness to enter into deals and dicker with our opponents, and trade off our professed principles for a share in the spoils of office?

One of the difficulties I have had to contend with when speaking and working for the People's party was the answers I got so often from old party men that our party would be just as corrupt when they got into office as the old parties are, and would sell out just as quick. What a damper we will be forced to meet now when our old party brothers turn on us and answer our appeals to them to come out of the two old parties by saying: "Ah, your leaders were even more corrupt than we thought they were. They did not even wait until they got into office to sell you out, but actually sold you out before they ever got into office. Ah, you Populist talk mighty nice and promise many things, but we are afraid to trust you. You are only wanting an opportunity to sell us out." Let every true Populist firmly resolve to teach the timbers, fusionists and traders who have been trafficking in our votes a most wholesome lesson by refusing to vote for Bryan.

I am greatly encouraged, too, by the great number of letters I have received from every part of the state repudiating the action of our trafficking committee and declaring they will not vote for Bryan.

Let no Populist be caught by the free silver hate with which the Democrats have hated their hook to catch Populist committees and success—[J. H. Arnold in Farm and Labor Journal.]

Electric Bitters. Electric Bitters is a medicine suited for every season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal illnesses. No medicine will act more surely in counteracting and freeing the system from the malaria poison. Headache, indigestion, dizziness yield to Electric Bitters 50c and \$1.00 per bottle at Williams & Bell's Drug Store.

Lottery Argument. Looking over the files of certain Democratic newspapers that are shedding crocodile tears over the refusal of a big faction of the Populist party to go out of business, we find some very choice arguments that they used a few months ago in their efforts to convince the Populists that they were away off on the questions advocated. Here are a few samples:

Bunco steers.  
Anarchists.  
Fools.  
Communists.  
Rogues.  
Socialists.  
Cranks.  
Dervishes.  
Repudiationists.  
Thieves.  
Fagin.  
Jachging.  
Pirates.  
Demagogues.  
Adventurers.  
Lafars.  
Humbugs.  
Hobos.  
Frauds.  
Idiots.  
Fanatics.  
Soreheads.

After calling a man all the choice names in a exuberant vocabulary, how can you say, "Come sit down, and let's reason together." We are what we have always been. If you fellows didn't need our votes you would still be heaping this kind of abuse upon us.

We are willing to vote for your man if you will vote for ours. If you can't recognize us, we won't recognize you. Free silver may seem a sweet morsel to you, but enlightened Populists are sure it is not the end—all you pretend. With its introduction, financial reform will be set back for years to come, and the Populists will have to begin their work of education all over again. Some of you know this; others of you are too blinded by party ties to realize it, and go along in the footsteps of others. Populists know exactly where they are "at" and don't propose to be drawn out into the darkness to be betrayed and destroyed.—[Farm and Labor Journal.]

Wheat still goes up, and silver goes down. Down!

Say what you please about Jo Blackbun, he is a man of rare courage, as witness his determination to answer Carlisle. Goin', Jo, and I—d—be he who first cries hold! enough. Remember, Joseph, that "the who doubts is a dastard," etc., etc.

According to Chairman Jones, the campaign funny man of the Populists, he commenced his work a sure winner and has daily figures to prove a tremendous loss from poor Hanna's army. Notwithstanding these terrible tidings Hanna goes merrily along as though he had no faith in "Jones of Arkansas."

Ex-Candidate Harlan was certain one year ago that he would be elected by a majority of 50,000, yet when the voters had finished, Bradley's majority was 9,000. Today "Alar Ran" Harlan thinks he thinks that Bryan's majority will be 25,000, which really means that Bryan will be defeated in Kentucky by about 18,000.

All wage earners who feel that the dollars they receive buy more and better clothing and food than they are entitled to are advised by Carlisle to vote for Bryan; all wage earners believe that they should be paid in a dollar worth 100 cents worth, of course, vote against Bryan, who insists that the American dollar is too good for the American wage earner.

The rise and fall of "Windjammer" Bryan will make a very interesting page in American history. As he arose in all his glory at Chicago many hypnotized leaders thought a fixed star of the first magnitude had appeared to dazzle the eyes of seventy million Americans. But now that he is spluttering out like a tallow candle, even the Senatorial silver candle has ceased to take and interest in him.

Mark Hanna is charged with the "crime of '56" in advancing the price of wheat 30 cents a bushel, of corn 10 cents, and of cotton 3 cents a pound. Mark is not satisfied with this, but is actually looting the effects of the people of Europe to buy heavily, and to pay in gold worth 100 cents on the dollar everywhere. By the almighty power Hanna has caused Bryan's 300 speeches with but a single thought to become merely sound and fury with no thought at all.

The Toledo Weekly Blade. Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union, and is well known at almost every one of the 70,000 post-offices in the country. It is edited with reference to a national circulation. It is a Republican paper, but men of all political tastes take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department (sent in world); Young Folks, Sunday School Lessons, Talmage's Sermons, the Paraphrase, the Question Bureau (which answers questions for subscribers), the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only \$1 a year. If you wish to take a club, write for terms. Address: The Blade, Toledo, Ohio.

The Republican of Hartford met Wednesday night and had speeches by different members of the club. Prof. P. A. Gary presented the following resolution which was unanimously adopted:

RESOLVED, That we the colored voters of Hartford do hereby renew our allegiance to the Grand Old Republican party and are proud of our party leaders, and will not be led off after the free silver craze, and hereby pledge the Republican party our hearty support and pledge ourselves to cast our votes on the 3d day of November for McKinley and Hobart and Jno W. Lewis, and will do all we can to secure their election.

But now that he is spluttering out like a tallow candle, even the Senatorial silver candle has ceased to take and interest in him.

Mark Hanna is charged with the "crime of '56" in advancing the price of wheat 30 cents a bushel, of corn 10 cents, and of cotton 3 cents a pound. Mark is not satisfied with this, but is actually looting the effects of the people of Europe to buy heavily, and to pay in gold worth 100 cents on the dollar everywhere. By the almighty power Hanna has caused Bryan's 300 speeches with but a single thought to become merely sound and fury with no thought at all.

The Toledo Weekly Blade. Every intelligent family needs in addition to their local paper, a good national weekly. It is the favorite family paper, with something for every member of the household. The Republican of Hartford met Wednesday night and had speeches by different members of the club. Prof. P. A. Gary presented the following resolution which was unanimously adopted:

RESOLVED, That we the colored voters of Hartford do hereby renew our allegiance to the Grand Old Republican party and are proud of our party leaders, and will not be led off after the free silver craze, and hereby pledge the Republican party our hearty support and pledge ourselves to cast our votes on the 3d day of November for McKinley and Hobart and Jno W. Lewis, and will do all we can to secure their election.

## THE FARMER'S FRIEND.

Free Silver Would Help the Farmer by Reducing the Value of His Debt.

Farmer—I reckon this free silver's about the best thing that's come our way since the war. Allowin' Bryan's elected all right this year, I calculate I'll be worth nearly \$2,000 more next year than now.

Farmer's Wife—Nonsense, Harvel! I don't believe silver's going to make folks rich. One'll have to work for a living if Bryan's elected just as hard as if he isn't.

F.—I don't deny but what your head's level there, Jane. Some folks will have to work harder, but it won't be us farmers. We'll come out on top with free silver. That's a sure 'nuf!

F. W.—What crazy notion's in your head now, anyhow? D'you think farmers are smart enough to make laws that'll take money out of other folks' pockets and put it into theirs?

F.—I'll tell you one way I'd help me, Jane. You know that if we got free coinage we will have silver dollars worth 'bout 50 cents—same as Mexican dollars now.

F. W.—I thought Bryan said that silver'll be worth just as much as gold when we get free silver.

F.—Yes, that's what he says in the east, but he won't scare the mill hands and savings banks folks too much. But he don't talk that way out here, because he knows that ain't what we're after. We want cheap money, not a price of wheat, corn and pork'll be twice as high, same as in Mexico.

F. W.—Suppose they are? Wouldn't you have to pay take us much for clothes and groceries and everything else you'd have to buy? If you got two dollars instead of one dollar, you'd have to spend two dollars instead of one dollar. It'll be just the same as if it was, if that's the way silver's going to make you rich, you'll never get rich.

F.—But I wouldn't have to spend two dollars for every dollar I spend now. You know, we have at least two hired men the whole year, and three to five more from April to November, besides the hired girl for most of the year. Do you reckon I'm going to raise their pay when we get free silver?

F. W.—I s'pose so. Why should'st you?

F.—Just because I wouldn't have to. I s'pose after a year or so I'd get 'em two or three dollars more a month, but nothing like double what they're getting now. I calculate I'd save between \$900 and \$1,000 in wages—not quite so much on John and I have, because they board with us, and of course the price of some of the things they eat would go up, but I'd save 'bout half on my day hands who live and board at home. That's how I figure it, and it's 'cordin' to the opinion of Doc, Boles and other big silver people. They say farm wages is too high for profits and that silver'll bring 'em down.

F. W.—And so that's why you're for free silver, Harvel? Guess to cheat your poor hired hands out of half their wages, men who now can hardly keep their families out of the poorhouse? I thought it was them that was a-tryin' to look and goldbugs you're after with your free silver stick and that you're trying to square accounts with them rich fellows, but it seems—

F.—Hold up there, Jane! Free silver's going to save us 'bout \$1,000 on what I still owe on that \$4,000 mortgage. Who d'you think'll lose that?

F.—I don't care who'll lose it. 'Tain't right to cheat nobody, but I wouldn't say a word so long as it's somebody who could afford to lose it, but when it comes to cheating your poor neighbors it's time to put a stop to it. I don't care if you never get that other farm paid for. I guess we won't starve on this old farm. I'm going to tell John and Dave and all the others just how free silver will hurt them, and I'll get them all to vote against Bryan. The idea of such farmers as you're trying to elect Bryan to cut down the wages of your hired men! I'm ashamed of you, I am!

Design for a Bryan Dollar.

Bryan's Two-Faced Argument. When argument is based upon a wrong principle, it is full of inconsistencies. Candidate Bryan says that our dollar is too valuable; that it has enhanced until two bushels of wheat are now required in exchange for a dollar, whereas one bushel of wheat was exchangeable for a dollar in days gone by. Mr. Bryan's remedy for this is to change the dollar. This is logical, and the dollar would certainly be devalued by "free coinage." No doubt of that. So far Candidate Bryan is consistent, but wait a moment. He says also that the free coinage of silver by the United States alone would double the price of silver bullion and make it worth \$1.20 per ounce in gold the world over. If this advance should result, the silver dollar would rise in value to the present worth of the gold dollar, and there would be absolutely no change in our financial system. These two propositions are utterly at variance with each other. One of them must of necessity be incorrect.—Atlanta Daily.

## A Sufferer Cured

"Every season, from the time I  
was two years old, I suffered dread-  
fully from erysipelas, which kept  
growing worse until my hands were  
almost useless. The bones softened  
so that they would bend, and several  
of my fingers are now crooked from  
this cause. On my  
hand I carry large  
scars, which, but for  
AYER'S  
Sarsaparilla, would  
be sores, provided I  
was alive and able  
to carry anything.  
Eight bottles of  
Ayer's Sarsaparilla cured me, so  
that I have had no return of the  
disease for more than twenty years.  
The first bottle seemed to reach the  
spot and a persistent use of it has  
perfected the cure."—O. C. DAVIS,  
Wantona, Wis.
